BED ASSEMBLY INSTRUCTIONS

INSTALL IN **9** Simple Steps!

*Thank you for investing in a
Coastwood slat bed.
We are sure your bed will give
you many hours of quality rest.*

BEFORE YOU START:

Please check you have all components -

- 1 Head end
- 1 Foot end
- 2 Side rails
- 1 Centre rail (not included in Single or King Single beds)
- 1 Slat frame (2 pieces for Double, Queen, King or Super king)
- 4 25mm Pozi drive screws

You are now ready to assemble the bed in 9 easy steps.
We recommend this is done by two people.

Step 1 Take the head end and stand it upright against something solid

Figure. 1

Step 2 Take one side rail and attach to head end as shown in figure 2.
**Please make sure that top of rail is facing up as shown in figure 3*
**Please note cleat at inside of side rail and slat spacer at top.*

Figure. 2

Figure. 3

Step 3 Move foot end into position and attach side rail as per head end

Step 4 Now attach the other side rail following instructions in step 2 & 3.

Step 5 Make sure the lugs on the side rail brackets are sitting right down to the bottom of the slots in the bracket on head and foot ends.
The first time assembling, fitting may be tight so place block of wood flat on the side rail then hit down or simply stand on side rail with soft soled shoes and Jiggle.(see figure 6)

Figure. 5

Figure. 6

Figure. 7

Step 6 Insert Pozi drive screw through the hole on both brackets, on side rails and bed. This is your locking screw which holds the side rails firmly in place. (Figure 7)

Step 7 Fit the centre rail. Make sure this is sitting right down in the slots on the brackets.

Figure. 8

Figure. 9

Step 8 Unwrap the slats & lay them in your frame with the joining cleats on the slats facing down. The slats should be sitting on the side rail cleats and the centre rail.
